Tip of the week:

Experimenting with your stance could give you more distance, particularly with your driver.

For instance, turn your left foot out at about a 45-degree angle, combined with moving my right foot forward to give me a slightly open stance. The reason was that these two small adjustments lets you uncoil your hips faster on the downswing, thereby clearing my body out of the way for the arms and hands to deliver the clubhead to the ball as freely and forcefully as possible.

Flag: Rule # 4 Form and Make of Clubs

4-1. General;

The player's clubs must conform with this Rule and the provisions, specifications and interpretations set forth in Appendix II.

Note: The Committee may require, in the conditions of a competition ([Rule 33-1](#)), that any driver the player carries must have a clubhead, identified by model and loft, that is named on the current List of Conforming Driver Heads issued by the USGA.
